

# GoGo squeeZ Coin Pouch

Create a fun, funky coin pouch to show off to your friends.

Skill Level:

Time:

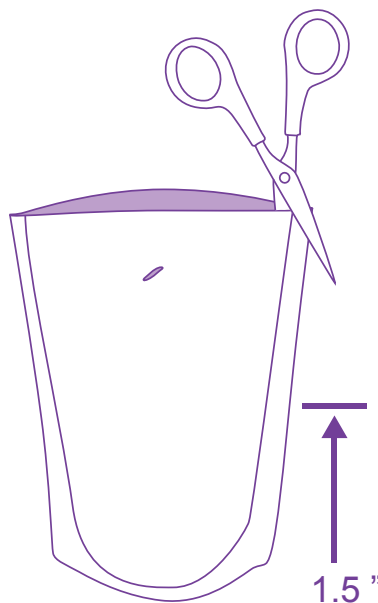

## Materials

fruit sauce pouch  
clear tape scissors  
ruler  
Velcro® fastener  
stickers permanent  
markers

## Instructions

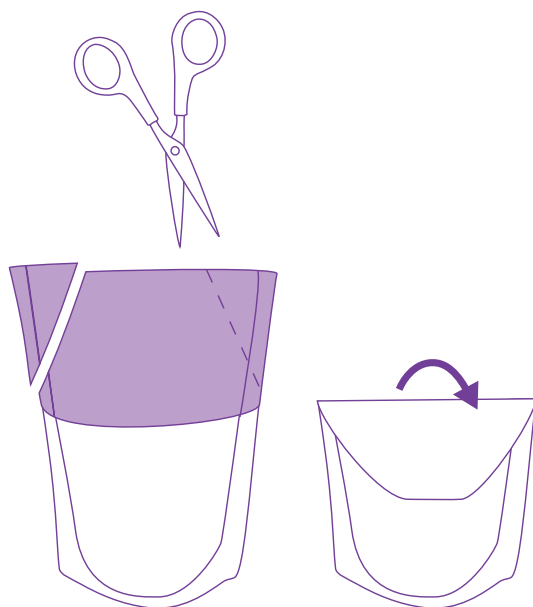

**1** Cut off the top of your pouch and clean the inside with soap and water.

**2** Cut two slits down the seams on both sides of the front of your pouch. Be careful to cut through only one layer of the pouch. The slits should come 1.5 inches from the bottom. Then cut straight across to remove the portion that you just cut.

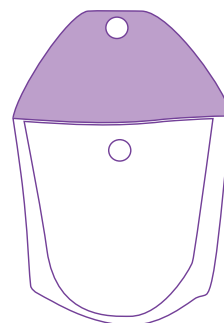

3

Trim off the corner edges of the flap. Then, fold the flap over the front, crease it, and open it back up.

4

Attach the Velcro® dot to the inside top of the flap. Fold the flap down and attach the other side at the bottom of the pouch.

5

Use stickers and permanent markers to decorate your coin pouch. This simple holder will leave you craving more upcycling projects!

**If you have completed this project and still have more materials to upcycle, be sure to sign up for the TerraCycle Brigades at [www.terracycle.com](http://www.terracycle.com) and send them in. These items will be transformed into new products, and better yet, your collection will earn money for your favorite charity!**
